

FIRENZE REATEN AGAIN.

THIS TIME CONNEMARA SETS THE PACE AND IN NEVER REACHED.

Firenze was asked to give the winner of the race on Thursday, and the result was a surprise to all. The race was run on the 28th, and the winner was Connemara, who set the pace and never reached.

POINT BREEZE PARK TROTS.

Exciting Contest Between Rich and Protection.

The Game Son of George Wilkes Finished First in the Trotting Race, but the Judge Set him Back for Running.

PHILADELPHIA, Sept. 28.—It was almost too good to be comfortable at Point Breeze track this afternoon. The prohibition of pool selling was again a damper to the enthusiasm. The course was thick with dust, and the footing was anything but good. It required two more heats to decide the unfinished race.

Joe Jefferson went faster than he did yesterday. The race was run on the 28th, and the winner was Connemara, who set the pace and never reached. The race was run on the 28th, and the winner was Connemara, who set the pace and never reached.

WESTCHESTER'S FAIR.

The Ticket Sales Can't Take in the Money as Fast as It Comes.

Not until yesterday did the Westchester county fair bloom forth in full glory. At a corresponding time last year the managers' faces were longer than the deficit in their treasury.

Now they smile a peaceful, autumnal smile, and wonder what they will do with their money. Yesterday Treasurer Harry Dykman strolled out to the main gate and found there the ticket seller perspiring and writhing. He exclaimed desperately, as the crowd pushed ahead for tickets and a dozen hands reached out at once: "This blankety blank ticket system of yours won't work."

"System," he dashed, "only answered the purpose holder of the organization. 'Just stand outside the gate, collect half a dollar from each person, and shove it into this carpet bag. When it's full call another.'"

It was estimated that 10,000 persons passed through the gates. Mrs. Toole, the restaurant owner, who is a member of the fair, returned with Tom Davis, who returned with her own account to stand by the fair. The fair was a success, and the managers' faces were longer than the deficit in their treasury.

THE DANGEROUS CONDITION OF GRAMMAR SCHOOL NO. 53.

Plumbing and Ventilation—Sick Pupils.

The Health Board had before it yesterday a succession of reports on the sanitary condition of Grammar School No. 53 in Seventy-ninth street, between Second and Third avenues, that exhibited inexcusable neglect in the management that is responsible for its sanitary condition.

The Society for the Prevention of Cruelty to Children wrote on Sept. 19 to the Board, complaining that the school was a death trap and threatening to follow up and bring the parties responsible for its condition to justice.

Whoever was guilty, Mr. Gerry wrote, of compelling children to sit in the school in the present condition of the rooms is guilty of a criminal offense under the Code, and would be brought to justice by the society. The trouble is mainly with the classrooms of some of the grades in the primary department. These are in the basement of the building, and in the most unhealthy position.

Each is about 25x30 feet, with two windows on each side, and very low ceilings. About sixty children find room in each, giving to each child a breathing space of fifty cubic feet or so. On either side these rooms are flanked by sinks, from which comes a vile and unbearable stench. The windows are almost impossible to open in the present condition of the rooms.
